

# **Admin Category Product Link for Magento 2**

User/Installation Guide

Version 2.4.6

## 1. Overview

The Admin Category Product Link extension for Magento 2 is a simple but really useful extension which gives you the ability to edit products directly from the category products / products in category tab in Magento admin. In the category products / products in category tab you can see all products currently assigned to that category, but there is no quick way to navigate to a product for editing. So the extension adds a product edit link for every product in category products / products in category tab. Save time by editing the product directly from a category instead of having to navigate through products grid and search for that product to edit.

## 2. Key Features

- Direct product edit link in category products / products in category tab
- Save time

## 3. Other Features

- Developed by a Magento Certified Developer
- Meets Magento standard development practices
- Simple installation
- 100% open source

## 4. Compatibility

Magento Community Edition 2.4

## 5. Download the Extension

- [Sign in](#) to your account
- Navigate to menu **My Account** → **My Downloads**
- Find the extension and click to download it
- Extract the downloaded ZIP file in a temporary directory

## 6. Backup your web directory and store database

Before installing the extension, backup your web directory and store database. All our extensions are tested on clean Magento installations. We can not guarantee of compatibility with third party extensions or customized Magento installations. We recommend to install any extension you obtain from us on a testing Magento installation first and then on a live Magento installation in case of incompatibility with third party extensions.

## 7. Installing the Extension using an archive and FTP

- Upload the extracted folders and files of the extension to base (root) Magento directory. Do not replace the whole folders, but merge them. If you have downloaded the extension from Magento Marketplace, then create the following folder path **app/code/MageVision/AdminCategoryProductLink** and upload there the extracted folders and files.

## 9. How to Use

Screenshot:

Admin Category Products Tab with Product Edit Link under **Products** → **Categories**

The screenshot shows the 'Categories' page in the Magento Admin interface. The left sidebar contains navigation menus for Dashboard, Sales, Products, Customers, Marketing, Content, Reports, Stores, System, and Find Partners & Extensions. The main content area is titled 'Categories' and includes a 'Store View' dropdown set to 'All Store Views'. There are 'Add Root Category' and 'Add Subcategory' buttons. Below these are 'Collapse All | Expand All' and a category tree showing 'Default Category (1181)' with sub-categories like 'What's New (0)', 'Women (0)', 'Men (0)', 'Gear (46)', 'Collections (13)', 'Training (6)', 'Promotions (0)', and 'Sale (0)'. The 'New Root Category' section has tabs for 'General Information', 'Display Settings', 'Custom Design', and 'Category Products' (which is active). Below the tabs is a search bar with 'Search', 'Reset Filter', and '2046 records found'. There is a pagination control showing '20 per page' and '1 of 103'. The main table has the following data:

	ID	Name	SKU	Price	Position	Action
Any				From To	From To	
<input type="checkbox"/>	2046	Set of Sprite Yoga Straps	24-WG085_Group			Edit
<input type="checkbox"/>	2045	Erika Running Short	WSH12	\$45.00		Edit
<input type="checkbox"/>	2044	Erika Running Short-32-Red	WSH12-32-Red	\$45.00		Edit
<input type="checkbox"/>	2043	Erika Running Short-32-Purple	WSH12-32-Purple	\$45.00		Edit
<input type="checkbox"/>	2042	Erika Running Short-32-Green	WSH12-32-Green	\$45.00		Edit
