

# **Admin Color Grid**

User/Installation Guide

Version 2.4.2

## 1. Overview

The Admin Color Grid extension improves orders and customers management in admin by coloring orders and customers grid based on order status and customer group respectively. You can easily configure a color for every order status and customer group in admin. The orders and customers grid will be colored based on your configuration.

## 2. Key Features

- Add color to orders grid based on order status
- Add color to customers grid based on customer group
- Improve orders and customers management
- Easily scan and identify orders and customers
- Better admin user interface

## 3. Other Features

- Developed by a Magento Certified Developer
- Meets Magento standard development practices
- Single License is valid for 1 live Magento installation and unlimited test Magento installations
- Simple installation
- 100% open source

## 4. Compatibility

Magento Community Edition 2.4

## 5. Download the Extension

- [Sign in](#) to your account
- Navigate to menu **My Account** → **My Downloads**
- Find the extension and click to download it
- Extract the downloaded ZIP file in a temporary directory

## 6. Backup your web directory and store database

Before installing the extension, backup your web directory and store database. All our extensions are tested on clean Magento installations. We can not guarantee of compatibility with third party extensions or customized Magento installations. We recommend to install any extension you obtain from us on a testing Magento installation first and then on a live Magento installation in case of incompatibility with third party extensions.

## 7. Installing the Extension using an archive and FTP

- Upload the extracted folders and files of the extension to base (root) Magento directory. Do not replace the whole folders, but merge them. If you have downloaded the extension from Magento Marketplace, then create the following folder path **app/code/MageVision/AdminProductGridFilter** and upload there the extracted folders and files.
- Connect via SSH to your Magento server as, or switch to, the Magento file system owner and run the following commands from the (root) Magento directory:
  - `cd path_to_the_magento_root_directory`
  - `php bin/magento maintenance:enable`
  - `php bin/magento module:enable MageVision_AdminColorGrid --clear-static-content`
  - `php bin/magento setup:upgrade`
  - `php bin/magento setup:di:compile`
  - `php bin/magento setup:static-content:deploy`
  - `php bin/magento maintenance:disable`
- Log out from Magento admin and log in again

## 8. Installing the Extension via composer (Magento Marketplace)

- Connect via SSH to your Magento server as, or switch to, the Magento file system owner and run the following commands from the (root) Magento directory:
  - `cd path_to_the_magento_root_directory`
  - `php bin/magento maintenance:enable`
  - `composer require magevision/module-admin-color-grid`
  - `php bin/magento module:enable MageVision_AdminColorGrid --clear-static-content`
  - `php bin/magento setup:upgrade`
  - `php bin/magento setup:di:compile`
  - `php bin/magento setup:static-content:deploy`
  - `php bin/magento maintenance:disable`

## 9. How to Use

Navigate to Magento Admin under **Stores** → **Configuration** → **MageVision Extensions** → **Admin Color Grid** and enable the extension for the admin grid you want. Then select order status or a customer group and simply assign a color to it.
