

Admin Users Online **for Magento 2**

User & Installation Guide

Version 2.4.7

Overview

The Admin Users Online extension gives you the ability to view the Admin users that are online in Magento admin at any given time. The length of the online session is set in the configuration, and determines how long an Admin user is visible from other Admin users. By default, the online session is set to 15 minutes. All online Admin users are listed in a Magento admin grid with additional information like Username, First Name, Last Name, Email Address, IP Address, Session Start Time, Session Status and Last Activity. You can also terminate an online Admin user's session and send a message to an online Admin user via email.

Key Features

- View the Admin users that are online in Magento admin
- Configurable length of the online session
- Additional information about the online Admin users
- Examine recent activity and last URL visited
- Send a message to an online Admin user via email
- Terminate an online Admin user's session
- Edit link to Admin user's page
- Better overview of who is accessing Magento admin

Other Features

- Developed by a Magento Certified Developer
- Meets Magento standard development practices
- Single License is valid for 1 live Magento installation and unlimited test Magento installations

- Simple installation
- 100% open source

Compatibility

Magento Community Edition 2.4

Download the Extension

- 1 Sign in to your account at www.magevision.com
- 2 Navigate to My Account § My Downloads
- 3 Find the extension and click to download it
- 4 Extract the downloaded ZIP file in a temporary directory
- 5 Backup your web directory and store database

Before installing the extension, backup your web directory and store database. All our extensions are tested on clean Magento installations. We can not guarantee compatibility with third party extensions or customized Magento installations. We recommend to install any extension you obtain from us on a testing Magento installation first and then on a live Magento installation in case of incompatibility with third party extensions.

Installing the Extension

Using an Archive and FTP

Upload the extracted folders and files of the extension to the base (root) Magento directory. Do not replace the whole folders, but merge them. If you have downloaded the extension from Magento Marketplace, then create the following folder path `app/code/MageVision/AdminUsersOnline` and upload there the extracted folders and files.

Connect via SSH to your Magento server as, or switch to, the Magento file system owner and run the following commands from the root Magento directory:

```
cd path_to_the_magento_root_directory
php bin/magento maintenance:enable
php bin/magento module:enable MageVision_AdminUsersOnline --clear-static-content
php bin/magento setup:upgrade
php bin/magento setup:di:compile
php bin/magento setup:static-content:deploy
php bin/magento maintenance:disable
```

Log out from Magento admin and log in again.

Via Composer (Magento Marketplace)

Connect via SSH to your Magento server as, or switch to, the Magento file system owner and run the following commands from the root Magento directory:

```
cd path_to_the_magento_root_directory
php bin/magento maintenance:enable
composer require magevision/module-admin-users-online
php bin/magento module:enable MageVision_AdminUsersOnline --clear-static-content
php bin/magento setup:upgrade
php bin/magento setup:di:compile
php bin/magento setup:static-content:deploy
php bin/magento maintenance:disable
```

How to Use

Navigate to Magento Admin under Stores § Configuration § MageVision Extensions § Admin Users Online to configure the length of the online session. If left empty, the default session time is 15 minutes.

To use a custom email template, navigate to Marketing § Email Templates, add a new template and load the default "Admin Users Online" template. You can use the variables "admin_user_sender_name", "admin_user_recipient_name" and "message" in the template

content. Save and configure the extension to use your new template.

Navigate to Magento Admin under System § Admin Users Now Online to view and manage the online Admin users.
