

Cart Product Comment **for Magento 2**

User & Installation Guide

Version 2.4.7

Overview

The Cart Product Comment extension for Magento 2 gives the ability to your customers to leave a comment to each product in cart. Comments are visible on every order in "My Account" and on the order confirmation email for customers and in Magento admin for Admin users. Admin users can view customers' comments and take action if needed. Improve your customers' experience and satisfy your customers the best. A better understanding of your customers' behavior and their needs, will help you to increase your sales and improve your store.

Key Features

- Customers can leave a comment to each product in cart
- Comments are visible on every order in "My Account" and on the order confirmation email for customers
- Comments are visible on every order in Magento admin for Admin users
- Admin users can view customers' comments and take action if needed
- Get order item's comment via Magento API
- Improve your customers' experience
- Satisfy your customers the best

Other Features

- Developed by a Magento Certified Developer
- Meets Magento standard development practices
- Single License is valid for 1 live Magento installation and unlimited test Magento installations
- Simple installation

- 100% open source

Compatibility

Magento Community Edition 2.4

Download the Extension

- 1 Sign in to your account at www.magevision.com
- 2 Navigate to My Account § My Downloads
- 3 Find the extension and click to download it
- 4 Extract the downloaded ZIP file in a temporary directory
- 5 Backup your web directory and store database

Before installing the extension, backup your web directory and store database. All our extensions are tested on clean Magento installations. We can not guarantee compatibility with third party extensions or customized Magento installations. We recommend to install any extension you obtain from us on a testing Magento installation first and then on a live Magento installation in case of incompatibility with third party extensions.

Installing the Extension

Using an Archive and FTP

Upload the extracted folders and files of the extension to the base (root) Magento directory. Do not replace the whole folders, but merge them. If you have downloaded the extension from Magento Marketplace, then create the following folder path `app/code/MageVision/CartProductComment` and upload there the extracted folders and files.

Connect via SSH to your Magento server as, or switch to, the Magento file system owner and run the following commands from the root Magento directory:

```
cd path_to_the_magento_root_directory
php bin/magento maintenance:enable
php bin/magento module:enable MageVision_CartProductComment --clear-static-content
php bin/magento setup:upgrade
php bin/magento setup:di:compile
php bin/magento setup:static-content:deploy
php bin/magento maintenance:disable
```

Log out from Magento admin and log in again.

Via Composer (Magento Marketplace)

Connect via SSH to your Magento server as, or switch to, the Magento file system owner and run the following commands from the root Magento directory:

```
cd path_to_the_magento_root_directory
php bin/magento maintenance:enable
composer require magevision/module-cart-product-comment
php bin/magento module:enable MageVision_CartProductComment --clear-static-content
php bin/magento setup:upgrade
php bin/magento setup:di:compile
php bin/magento setup:static-content:deploy
php bin/magento maintenance:disable
```

How to Use

Navigate to Magento Admin under Stores § Configuration § MageVision Extensions § Cart Product Comment to activate the extension. A comment box will be added to each product in cart where customers can leave a comment. After an order is placed, comments are visible on every order in "My Account" and on the order confirmation email for customers and in Magento admin for Admin users.
