

Custom Carrier Trackers

User/Installation Guide

Version 2.4.4

1. Overview

The Custom Carrier Trackers extension gives you the ability to add new custom tracking carriers. As is well known Magento provides default shipping carriers only for DHL, UPS, USPS and FedEx, which sometimes are not enough. So with this extension you will solve that problem. Add as many new tracking carriers as you need with a fully configurable tracking carrier title and URL. The default Magento tracking methods can be disabled. Give the possibility to your customers to track their shipment directly from their account section and the shipment email. Easy management and a full overview of all your custom carrier trackers in Magento admin.

2. Key Features

- Unlimited new completely custom carrier trackers
- Each carrier tracker is fully configurable. Title, tracking url, enable/disabled
- The tracking number gets replaced in the tracking URL automatically, just use the variable #TRACKNUM#
- Additional extra variables #FIRSTNAME#, #LASTNAME#, #COUNTRYCODE#, #POSTCODE#
- Customers can track their order directly from the shipment email
- Customers can track their order directly from their account section
- Default Magento shipping carriers can be disabled
- Store owners also can track shipments from Magento admin directly
- Custom carrier trackers quick inline edit in Magento admin grid
- Custom carrier trackers Magento admin grid for a better overview
- Manage custom carrier trackers via API

3. Other Features

- Developed by a Magento Certified Developer
- Meets Magento standard development practices
- Single License valid for 1 live Magento installation and unlimited test Magento installations
- Simple installation
- 100% open source

4. Compatibility

Magento Community Edition 2.4

5. Download the Extension

- [Sign in](#) to your account
- Navigate to menu **My Account** → **My Downloads**
- Find the extension and click to download it
- Extract the downloaded ZIP file in a temporary directory

6. Backup your web directory and store database

Before installing the extension, backup your web directory and store database. All our extensions are tested on clean Magento installations. We can not guarantee of compatibility with third party extensions or customized Magento installations. We recommend to install any extension you obtain from us on a testing Magento installation first and then on a live Magento installation in case of incompatibility with third party extensions.

7. Installing the Extension using an archive and FTP

- Upload the extracted folders and files of the extension to base (root) Magento directory. Do not replace the whole folders, but merge them. If you have downloaded the extension from Magento Marketplace, then create the following folder path **app/code/MageVision/CustomCarrierTrackers** and upload there the extracted folders and files.
- Connect via SSH to your Magento server as, or switch to, the Magento file system owner and run the following commands from the (root) Magento directory:
 - `cd path_to_the_magento_root_directory`
 - `php bin/magento maintenance:enable`
 - `php bin/magento module:enable MageVision_CustomCarrierTrackers --clear-static-content`
 - `php bin/magento setup:upgrade`
 - `php bin/magento setup:di:compile`
 - `php bin/magento setup:static-content:deploy`
 - `php bin/magento maintenance:disable`
- Log out from Magento admin and log in again

8. Installing the Extension via composer (Magento Marketplace)

- Connect via SSH to your Magento server as, or switch to, the Magento file system owner and run the following commands from the (root) Magento directory:
 - `cd path_to_the_magento_root_directory`
 - `php bin/magento maintenance:enable`
 - `composer require magevision/module-custom-carrier-trackers`
 - `php bin/magento module:enable MageVision_CustomCarrierTrackers --clear-static-content`
 - `php bin/magento setup:upgrade`
 - `php bin/magento setup:di:compile`
 - `php bin/magento setup:static-content:deploy`
 - `php bin/magento maintenance:disable`

9. How to Use

Navigate to Magento Admin under **Stores** → **Configuration** → **MageVision Extensions** → **Custom Carrier Trackers** to activate the extension and disable the Magento default carrier trackers if is needed.

Navigate to Magento Admin under **MageVision** → **Custom Carrier Trackers** to manage your custom carrier trackers and add new one. A tracking url is usually provided from the Shipping Carrier you use for your store.

Create a new shipment for an order adding one or more custom tracking carriers. Send the tracking information to the customer. In the email the tracking numbers are clickable and you can track directly the shipment. Also in the customer account section under **My Orders** → **Order View** → **Order Shipments**.

An example tracking URL used for a custom carrier tracker with a replaceable tracking number variable would be:

- <https://www.fedex.com/apps/fedextrack/?action=altref&trackingnumber=#TRACKNUM#>

Additional example with extra variables:

- https://www.fedex.com/apps/fedextrack/?action=altref&trackingnumber=#TRACKNUM#&dest_cntry=#COUNTRYCODE#&dest_postal=#POSTCODE#

Additional extra variables that can be used #FIRSTNAME#, #LASTNAME#, #COUNTRYCODE# and #POSTCODE#.

Available API endpoints

GET /V1/custom_carrier_trackers

GET /V1/custom_carrier_trackers/:trackerId

POST /V1/custom_carrier_tracker

```
{
  "tracker": {
    "carrier_title": "Royal mail",
    "tracking_url": "https://www.royalmail.com/portal/rm/track?trackNumber=#TRACKNUM#",
    "is_active": true
  }
}
```

DELETE /V1/custom_carrier_tracker/:trackerId

Activate the extension and disable default carrier trackers.

Stores → **Configuration** → **MageVision Extensions** → **Custom Carrier Trackers**

The screenshot shows the Magento Configuration interface. On the left is a vertical sidebar with menu items: DASHBOARD, SALES, PRODUCTS, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, and SYSTEM. The main content area is titled "Configuration" and includes a search icon, a notification bell, and a user profile "admin". Below this is a "Store View" dropdown set to "Default Config" and a "Save Config" button. The left sidebar of the configuration panel lists categories: GENERAL, CATALOG, CUSTOMERS, SALES, MAGEVISION EXTENSIONS (expanded), and SERVICES. Under "MAGEVISION EXTENSIONS", the "Custom Carrier Trackers" option is selected. The configuration details for "Custom Carrier Trackers" are shown in the "General" section. It features an "Enable" dropdown set to "Yes" and a "Disabled Default Tracking Carriers" list containing "DHL", "Federal Express", "United Parcel Service", and "United States Postal Service".

Inline Edit carrier tracker

The screenshot displays the 'Manage Custom Carrier Trackers' page in a Magento 2 admin interface. On the left is a vertical sidebar with navigation icons for PRODUCTS, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, and FIND PARTNERS & EXTENSIONS. The main header includes a search icon, a notification bell, and a user profile labeled 'admin'. Below the header is a large orange 'Add Carrier Tracker' button. A search bar with the placeholder 'Search by keyword' and a magnifying glass icon is present. To the right of the search bar are 'Filters', 'Default View', and 'Columns' dropdown menus. Below these are 'Actions' and '3 records found (1 selected)' indicators, along with a pagination control showing '20 per page' and '1 of 1' records. The main content area features a table with the following columns: Tracker ID, Carrier Title, Tracking URL, Status, and Action. The table contains three rows: 1. Tracker ID: 1, Carrier Title: Fedex, Tracking URL: http://www.fedex.com/apps/fedextrack/?action=track&trackingnumber=#TRACKNUM#&, Status: Enabled, Action: Edit icon. 2. Tracker ID: 2, Carrier Title: Ups, Tracking URL: https://wwwapps.ackNums=#TRACKNUM#, Status: Enabled, Action: Select dropdown. 3. Tracker ID: 3, Carrier Title: Royal mail, Tracking URL: https://www.royalmail.com/portal/rm/track?trackNumber=#TRACKNUM#, Status: Enabled, Action: Select dropdown. An inline edit modal is open over the second row, containing a 'Cancel' button and a 'Save' button.

Tracker ID	Carrier Title	Tracking URL	Status	Action
1	Fedex	http://www.fedex.com/apps/fedextrack/?action=track&trackingnumber=#TRACKNUM#&	Enabled	
2	Ups	https://wwwapps.ackNums=#TRACKNUM#	Enabled	Select
3	Royal mail	https://www.royalmail.com/portal/rm/track?trackNumber=#TRACKNUM#	Enabled	Select

Multiple Inline Edit carrier tracker

The screenshot displays a web interface for managing carrier trackers. On the left is a vertical sidebar with navigation icons for Dashboard, Sales, Products, Customers, Marketing, Content, Reports, Stores, and System. The main content area features a header with an 'Add Carrier Tracker' button. Below the header is a search bar with the placeholder 'Search by keyword' and a magnifying glass icon. To the right of the search bar are controls for 'Filters', 'Default View', and 'Columns'. Below these is an 'Actions' dropdown menu, a status indicator '3 records found (3 selected)', and pagination controls showing '20 per page' and '1 of 1'. The main table has a header with columns: Tracker ID, Carrier Title, Tracking URL, Status, and Action. The first row is highlighted in yellow and contains 'All in Column' text and input fields for each column, with an 'Apply' button. The subsequent three rows contain data for Fedex, Ups, and Royal mail, each with a checked checkbox, an edit icon, and a status dropdown set to 'Enabled'.

<input checked="" type="checkbox"/>	Tracker ID	Carrier Title	Tracking URL	Status	Action
<input checked="" type="checkbox"/>	1	Fedex	http://www.fedex.com/apps/fedextrack?action	Enabled	
<input checked="" type="checkbox"/>	2	Ups	https://wwwapps.ups.com/WebTracking/track:	Enabled	
<input checked="" type="checkbox"/>	3	Royal mail	https://www.royalmail.com/portal/rm/track?tr:	Enabled
