

Mini Cart Coupon **for Magento 2**

User & Installation Guide

Version 2.4.7

Overview

The Mini Cart Coupon extension for Magento 2 gives the ability to your customers to apply a coupon code in Mini Cart. There is no need anymore to wait until the Cart or Checkout page. Additionally you can configure to display the Grand Total and the Discount Amount in Mini Cart. Provide a better shopping experience to your customers and a better overview of the total cost of their purchases.

Key Features

- Apply a coupon code in Mini Cart
- Display Grand Total in Mini Cart
- Display Discount Amount in Mini Cart
- Ajax processing and Totals calculation
- Better customers' shopping experience

Other Features

- Developed by a Magento Certified Developer
- Meets Magento standard development practices
- Single License is valid for 1 live Magento installation and unlimited test Magento installations
- Simple installation
- 100% open source

Compatibility

Magento Community Edition 2.4

Download the Extension

- 1 Sign in to your account at www.magevision.com
- 2 Navigate to My Account § My Downloads
- 3 Find the extension and click to download it
- 4 Extract the downloaded ZIP file in a temporary directory
- 5 Backup your web directory and store database

Before installing the extension, backup your web directory and store database. All our extensions are tested on clean Magento installations. We can not guarantee compatibility with third party extensions or customized Magento installations. We recommend to install any extension you obtain from us on a testing Magento installation first and then on a live Magento installation in case of incompatibility with third party extensions.

Installing the Extension

Using an Archive and FTP

Upload the extracted folders and files of the extension to the base (root) Magento directory. Do not replace the whole folders, but merge them. If you have downloaded the extension from Magento Marketplace, then create the following folder path `app/code/MageVision/MiniCartCoupon` and upload there the extracted folders and files.

Connect via SSH to your Magento server as, or switch to, the Magento file system owner and run the following commands from the root Magento directory:

```
cd path_to_the_magento_root_directory
php bin/magento maintenance:enable
```

```
php bin/magento module:enable MageVision_MiniCartCoupon --clear-static-content
php bin/magento setup:upgrade
php bin/magento setup:di:compile
php bin/magento setup:static-content:deploy
php bin/magento maintenance:disable
```

Log out from Magento admin and log in again.

Via Composer (Magento Marketplace)

Connect via SSH to your Magento server as, or switch to, the Magento file system owner and run the following commands from the root Magento directory:

```
cd path_to_the_magento_root_directory
php bin/magento maintenance:enable
composer require magevision/module-mini-cart-coupon
php bin/magento module:enable MageVision_MiniCartCoupon --clear-static-content
php bin/magento setup:upgrade
php bin/magento setup:di:compile
php bin/magento setup:static-content:deploy
php bin/magento maintenance:disable
```

How to Use

Navigate to Magento Admin under Stores § Configuration § MageVision Extensions § Mini Cart Coupon to enable and configure the extension. Once enabled, a coupon code input field will appear in the Mini Cart allowing customers to apply discount codes without navigating to the cart or checkout page.
