

# Update Order Email Address

User/Installation Guide

Version 2.4.5

## 1. Overview

The Update Order Email Address extension gives you the ability to modify an incorrect order email address. Sometimes a customer service agent, a guest customer or a new registered customer enters accidentally an incorrect email address when submits an order. This causes the problem that the customer never receives the order confirmation email. Unfortunately, customer service cannot modify the email address on the order. This extension solves that problem by letting you to modify the customer email on order level and then you can resend the order confirmation email to the new email address.

## 2. Key Features

- Modify the customer email address on order level
- And resend the order confirmation email to the new email address

## 3. Other Features

- Developed by a Magento Certified Developer
- Meets Magento standard development practices
- Single License is valid for 1 live Magento installation and unlimited test Magento installations
- Simple installation
- 100% open source

## 4. Compatibility

Magento Community Edition 2.4

## 5. Download the Extension

- [Sign in](#) to your account
- Navigate to menu **My Account** → **My Downloads**
- Find the extension and click to download it
- Extract the downloaded ZIP file in a temporary directory

## 6. Backup your web directory and store database

Before installing the extension, backup your web directory and store database. All our extensions are tested on clean Magento installations. We can not guarantee of compatibility with third party extensions or customized Magento installations. We recommend to install any extension you obtain from us on a testing Magento installation first and then on a live Magento installation in case of incompatibility with third party extensions.

## 7. Installing the Extension using an archive and FTP

- Upload the extracted folders and files of the extension to base (root) Magento directory. Do not replace the whole folders, but merge them. If you have downloaded the extension from Magento Marketplace, then create the following folder path **app/code/MageVision/UpdateOrderEmailAddress** and upload there the extracted folders and files.
- Connect via SSH to your Magento server as, or switch to, the Magento file system owner and run the following commands from the (root) Magento directory:

## 9. How to Use

### Screenshot Magento Admin Order View Email Address Edit

The screenshot displays the Magento Admin interface for viewing and editing an order's email address. The page is titled "#000000002" and includes a navigation sidebar on the left with icons for Dashboard, Sales, Products, Customers, Marketing, Content, Reports, Stores, System, and Find Partners & Extensions. The main content area is divided into several sections:

- Order & Account Information:** This section contains the order details. The order number is #000000002, and the status is "Complete". The order date is Feb 22, 2016, 2:09:29 PM. The account information shows the customer name as Veronica Costello and the email as roni\_cost@example.com, with an "Edit" button next to the email.
- Address Information:** This section is divided into two columns: Billing Address and Shipping Address. Both addresses are identical: Veronica Costello, 6146 Honey Bluff Parkway, Calder, Michigan, 49628-7978, United States, T: (555) 229-3326. Each address has an "Edit" link.
- Payment & Shipping Method:** This section is currently empty.

At the top right of the page, there are search, notification, and user profile icons. Below the order number, there are navigation buttons: Back, Send Email, Credit Memo, and Reorder.
