

Update Order Email Address for Magento 2

User/Installation Guide
Version 2.4.7

1. Overview

The Update Order Email Address extension for Magento 2 gives you the ability to modify an incorrect order email address. Sometimes a customer service agent, a guest customer or a new registered customer enters accidentally an incorrect email address when submits an order. This causes the problem that the customer never receives the order confirmation email. Unfortunately, customer service cannot modify the email address on the order. This extension solves that problem by letting you to modify the customer email on order level and then you can resend the order confirmation email to the new email address.

2. Key Features

- Modify the customer email address on order level
- And resend the order confirmation email to the new email address

3. Other Features

- Developed by a Magento Certified Developer
- Meets Magento standard development practices
- Single License is valid for 1 live Magento installation and unlimited test Magento installations
- Simple installation
- 100% open source

4. Compatibility

Magento Community Edition 2.4

5. Download the Extension

- [Sign in](#) to your account
- Navigate to menu **My Account** → **My Downloads**
- Find the extension and click to download it
- Extract the downloaded ZIP file in a temporary directory

6. Backup your web directory and store database

Before installing the extension, backup your web directory and store database. All our extensions are tested on clean Magento installations. We can not guarantee of compatibility with third party extensions or customized Magento installations. We recommend to install any extension you obtain from us on a testing Magento installation first and then on a live Magento installation in case of incompatibility with third party extensions.

7. Installing the Extension using an archive and FTP

- Upload the extracted folders and files of the extension to base (root) Magento directory. Do not replace the whole folders, but merge them. If you have downloaded the extension from Magento Marketplace, then create the following folder path **app/code/MageVision/UpdateOrderEmailAddress** and upload there the extracted folders and files.
- Connect via SSH to your Magento server as, or switch to, the Magento file system owner and run the following commands from the (root) Magento directory:
 - `cd path_to_the_magento_root_directory`
 - `php bin/magento maintenance:enable`
 - `php bin/magento module:enable MageVision_UpdateOrderEmailAddress --clear-static-content`
 - `php bin/magento setup:upgrade`
 - `php bin/magento setup:di:compile`
 - `php bin/magento setup:static-content:deploy`
 - `php bin/magento maintenance:disable`
- Log out from Magento admin and log in again

8. Installing the Extension via composer (Magento Marketplace)

- Connect via SSH to your Magento server as, or switch to, the Magento file system owner and run the following commands from the (root) Magento directory:
 - `cd path_to_the_magento_root_directory`
 - `php bin/magento maintenance:enable`
 - `composer require magevision/module-update-order-email-address`
 - `php bin/magento module:enable MageVision_UpdateOrderEmailAddress --clear-static-content`
 - `php bin/magento setup:upgrade`
 - `php bin/magento setup:di:compile`
 - `php bin/magento setup:static-content:deploy`
 - `php bin/magento maintenance:disable`

9. How to Use

Screenshot Magento Admin Order View Email Address Edit

The screenshot displays the Magento Admin interface for viewing and editing an order. The top navigation bar includes the Magento logo, the order ID #000000002, and user information (admin). A sidebar on the left contains navigation icons for Dashboard, Sales, Products, Customers, Marketing, Content, Reports, Stores, System, and Find Partners & Extensions. The main content area is divided into several sections:

- ORDER VIEW** (Left sidebar menu): Information, Invoices, Credit Memos, Shipments, Comments History.
- Order & Account Information** (Main content):
 - Order # 000000002 (The order confirmation email is not sent)**
