## 5. Download the Extension

- [Sign in](#) to your account
- Navigate to menu **My Account** → **My Downloads**
- Find the extension and click to download it
- Extract the downloaded ZIP file in a temporary directory

## 6. Backup your web directory and store database

Before installing the extension, backup your web directory and store database. All our extensions are tested on clean Magento installations. We can not guarantee of compatibility with third party extensions or customized Magento installations. We recommend to install any extension you obtain from us on a testing Magento installation first and then on a live Magento installation in case of incompatibility with third party extensions.

## 7. Installing the Extension

- Upload the extracted folders and files of the extension to base (root) Magento directory. Do not replace the whole folders, but merge them. If you have downloaded the extension from Magento Marketplace, then create the following folder path **app/code/MageVision/FreeShippingAdmin** and upload there the extracted folders and files.
- Connect via SSH to your Magento server as, or switch to, the Magento file system owner and run the following commands from the (root) Magento directory:
  - `cd path_to_the_magento_root_directory`
  - `php bin/magento maintenance:enable`
  - `php bin/magento module:enable MageVision_FreeShippingAdmin`
  - `php bin/magento setup:upgrade`
  - `php bin/magento setup:di:compile`
  - `php bin/magento setup:static-content:deploy`
  - `php bin/magento maintenance:disable`
- Log out from Magento admin and log in again
